

Ecommerce - Fecmall

Fecmall

Editor xhedit je v čínštině

- nastavit v souboru vendor/fancyecommerce/fec-admin/myassets/DwzAsset.php
'xheditor/xheditor_lang/en.js',

Aktualizace databáze: https://github.com/fecshop/yii2_fecshop/tree/master/migrations

Chyba - nezobrazují se všechny varianty!

nutno v souboru /vendor/fancyecommerce/fecshop/services/helper/AR.php zvýšit hodnotu proměnně
\$numPerPage z původních 20 na více: public \$numPerPage = 2000; //JHInformica oprava aby se
zobrazovaly vsechny varianty

app/appfront/widgets/Page.php

/*JHInformica seo first page*/

```
$url = preg_replace('/\?p=[1]$/', '', $url);
```

```
$url = preg_replace('/\&p=[1]$/', '', $url);
```

fecshop/services/cms/StaticBlock.php:

/*InformicaJH*/

Ecommerce - Fecmall

```
protected function actionGetStoreContent2ByIdentify($identify, $app = 'common')
```

```
{
```

Ecommerce - Fecmall

```
$staticBlock    = $this->_static_block->getByIdentify($identify);
```

```
$content        = $staticBlock['content2'];
```

```
);  
$storeContent = Yii::$service->store->getStoreAttrVal($content, 'content2'
```

```
$_params_ = $this->getStaticBlockVariableArr($app);
```

```
ob_start();
```

```
ob_implicit_flush(false);
```

```
extract($_params_, EXTR_OVERWRITE);
```

```
foreach ($_params_ as $k => $v) {
```

```
