```

WP code snippets and disable xml rpc

```
/var/www/wp plugin install insert-headers-and-footers
```

<https://www.wpbeginner.com/plugins/how-to-disable-xml-rpc-in-wordpress/#aioseo-method-1-disabling-wordpress-xml-rpc-with-htaccess>

```
find . -type f -exec chmod 664 {} +
find . -type d -exec chmod 775 {} +
chmod 660 wp-config.php
```

```
find . -type f -exec chmod 644 {} +
find . -type d -exec chmod 755 {} +
chmod 640 wp-config.php
chmod o-w wp-config.php
```

.htaccess

php_flag engine off

Order allow,deny

Deny from all

```
find . -name "*.php" -type f -delete
```

```
find . -name "*.php" -type f -print
```

Pokud se objeví chyba:

PHP Fatal error: Uncaught ArgumentCountError: Too few arguments to function

WP_Widget::__construct(), 0 passed in wp-includes/class-wp-widget-factory.php on line 62 and at

Page 1 / 2

Wordpress

least 2 expected wp-includes/class-wp-widget.php:163

```
vyřeší se ve class-wp-widget-factory.php  
//$this->widgets[ $widget ] = new $widget();  
$this->widgets[ $widget ] = new $widget( $widget, $widget );
```
