**Support our work**

**Footer alternating text**

added to astra template file desktop-builder-layout.php

Solved by php code - rotate based on current time:

```
"... about fighting climate change. ",  
"... about energy and the environment. ",  
"... about energy and the economy. ",  
];  
$index = time() % count($texts);  
echo $texts[$index];  
?>
```
