

CzechKG

Admin: <https://czechkg.cz/api/admin/admin.php>

```
build:
czechkg
npm run dev:ssr
npm run build:ssr
npm run serve
```

```
/*this still works*/
npm run dev # Development
npm run build # Production build
```

Development SSR (npm run dev:ssr) - Server renders full HTML with SEO-friendly content

Production SSR (npm run build:ssr && npm run serve) - Optimized bundles with server-side rendering
Client Build (npm run build) - Standard client-side build works correctly

```
cd /var/www/czechkg.cz

# Delete old node_modules
rm -rf node_modules

# Fresh install
npm ci --production

# Restart PM2
pm2 restart czechkg-app
pm2 logs czechkg-app
```

Fuse.js must be installed:
npm install fuse.js --save
