Python tool - create mysql query

<https://www.online-python.com/>

Online Python - IDE, Editor, Compiler, Interpreter

```
a = ['L','M','S','XL','XXL','XXXL']
```

```
print ('insert into material (materialsubgroup_id,name,description,param,order_no) values ')
```

```
for i in range(355,370):
```

```
    k=0
```

```
    for j in range(len(a)):
```

```
        print("(" + str(i) + "," + a[j] + "," + 'Dámská mikina Urban ' + a[j] + "" + "," + a[j] + "," + str(k) + "),"
```

```
        k=k+1
```
