

Rafo luya forms

problém chyba Getting unknown property: luya\forms\Model::_attributeHints nefungovalo ani po zkopírování modulu z tiskplus.cz

Fixnuto následovně:

Forms.php zakomentováno

```
public function setAttributeHint($attribute, $hint)
```

```
{  
//JHfix - zakomentovano - nefungovalo u rafa $this->model->_attributeHints[$attribute] = $hint;  
  
}
```

nefungovali labels

fixnuto:

blocks/TextBlock.php

//JHfix - nezobrazoval se label

```
return $this->getVarValue('isTextarea') ? $activeField->textArea(['rows' =>  
$this->getCfgValue('textareaRows', null)])->label($this->getVarValue($this->varLabel)) :  
$activeField->textInput()->label($this->getVarValue($this->varLabel));  
}
```
