

# UNIX commandline

## PDF manipulation

sudo apt install qpdf

Remove a specific page using qpdf

qpdf input.pdf output.pdf --pages input.pdf <page-ranges> (1-5 6-7) --

Join / merge two PDFs using qpdf

qpdf --empty merged.pdf --pages file1.pdf file2.pdf --

Example: pages 1-3 from file1 + page 5 of file2:

qpdf --empty merged.pdf --pages file1.pdf 1-3 file2.pdf 5 --
